## EDUCATION

- **BE** Electronics and Communication Engineering, Hindusthan Institute of Technology  
CGPA: 8.3 2021 – present | Current
- **HSC** - Our Lady of Lourdes Matric Hr Sec School, Pollachi, Coimbatore  
Scored 85% 2019 – 2021 | Pollachi
- **SSLC** - Our Lady of Lourdes Matric Hr Sec School, Pollachi, Coimbatore  
Scored 78.4% 2018 – 2019 | Pollachi

## TECHNICAL SKILLS

**Programming Languages:** Python,  
Java, c, c++

**Database Management:** MySQL

**Web Development:** HTML, CSS,  
Javascript

**Developer Tools:** VS Code, Github

**Frameworks:** UI | UX

**Core:** Networking

**MSOffice:** Word, Excel, PowerPoint

## PROFESSIONAL EXPERIENCE

### Internship

#### DSIB Tech

Jan 2023

Embedded System Design training

#### Emglitz Technologies

Oct 2023

Internet of Things

#### Accent Techno Soft

Mar 2022

Python with Machine Learning

## PROJECTS

### Face Recognition Attendance System

Jan 2024 - Mar 2024

**Objective:** Perform real-time face recognition using a webcam to mark attendance based on known faces.

**Components:** Uses cv2 and face-recognition libraries to capture webcam frames, detect faces, compare them against stored encodings, and record attendance in a CSV file.

**Workflow:** Loads known faces from a directory, initializes webcam feed, detects and recognizes faces in each frame, records attendance upon recognition, and displays results in real-time.

### Traffic Light Negotiation System

Aug 2023 - Sep 2023

**Purpose:** This program uses HSV color thresholding to detect and identify traffic light colors in a video feed.

**Components:** Utilizes OpenCV to read video frames, convert them to HSV color space, apply color masks, find contours, and determine the predominant color based on contour area.

**Functionality:** Analyzes the largest contour area among green, yellow, and red masks to infer the current traffic light status.

**Output:** Displays real-time traffic light status overlaid on the video feed, indicating the recognized color with corresponding text in the frame.

## CERTIFICATES

- C, C++, Java, HTML in CSC Institute, Pollachi
- Programming using Java at Infosys
- Basics of Python in HackerRank and Accenture
- IP Awareness in NIPAM
- Basics of Microsoft Excel in coursera

## ACHIEVEMENTS

- **NSS Volunteer :** Actively participated volunteer in volunteering to social activity like blood donation, adult education, cleaning camps etc.
- participated in basic life support and recovery position and recorded as an "world record event under Asia book of records" held at Tamil Nadu agricultural university,coimbatore-2022
- participated in national level science and technology exhibition and technical symposium held at Hindusthan polytechnic college Coimbatore-2021
